**CD-ROM Format and File Size Limits:** Include 10-15 examples of your visual work (plus a maximum of 5 detail images). All still images must be saved as JPEGs with the file size no larger than 500 KB each. Movie files must be in QuickTime format (Sorenson or H.264 compression) with a file size ~50 MB. If submitting a movie larger than 50 MB, you must include an excerpt or more highly compressed version that is not larger than 50 MB in size. Please entitle the corresponding versions in a manner that indicates this difference, yet the two corresponding files may be considered as one work.

All submissions of interactive projects using new technologies will also need to be converted to static images or QuickTime documentation to ensure consideration.

Please follow these guidelines as other formats may not be viewable.
